

Make your payout plan your competitive advantage.

TOP ENTERPRISES ARE REIMAGINING PAYOUTS FROM CHECKS TO TECH

- The growing millennial workforce is demanding instant gratification with fast, frictionless payouts
- Digital, mobile wallet transactions will be over half of global payments by 2023
- Companies that adopt a shorter time frame from point of sale to payout yield greater distributor retention and increased sales performance
- Most successful direct sales companies have evolved from ACH & check payments to robust branded digital wallet solutions that offer instant payouts and flexible spend options
